

Layby[™] Pro

Herbicide

Maximum burndown, residual and crop safety at layby

When you layby cotton, you want fast results that will last through the rest of the season. Layby[™] Pro herbicide delivers outstanding broad-spectrum weed control, improved grass control and faster burndown. And, unlike most contact herbicides, Layby Pro delivers soil residual control.

Layby Pro provides residual control of morningglory, pigweed, cocklebur, sicklepod, hemp sesbania, smartweed, barnyardgrass, signalgrass, crabgrass, foxtail, ryegrass, Texas panicum and many other tough broadleaf weeds and grasses.

And Layby Pro is offered in a liquid flowable formulation that is packaged in 2.5 gallon jugs. So, you get all of this performance in one convenient package – without tank mixing.

Faster broad-spectrum burndown that lasts
