

Soil-Mend[™]

Agricultural Soil Amendment

SOIL-MEND is a liquid soil amendment that alters the chemical and physical structure of agricultural soils making them more receptive to growing crops.

SOIL-MEND loosens the soil improving air and water penetration while allowing excess salts to leach away. It also contains two crucial plant-growing nutrients, calcium and sulfur. And the use of SOIL-MEND increases the availability of other important nutrients.

After Soil-Mend[®] is applied, its sulfur and calcium composition allows unwanted sodium to leach away.

SOIL-MEND

- Leaches away unwanted sodium in the soil.
- As the sodium exits, the soil aggregates into larger particles.
- Looser, more porous soil = improved water percolation and aeration.
- Reduces soil pH.

Impact on Crops

- SOIL-MEND improves plant nutrition, providing calcium and sulfur in forms ideal for uptake by plants.
- Other soil nutrients like zinc, phosphorous and magnesium, become more available to plants.

Compare SOIL-MEND to Other Soil Amendments

- Gypsum is less soluble in water, so its soil-amending properties take much longer to impact the soil structure.
- Sulfuric acid is hazardous to handle and doesn't contain calcium.
- Soil sulfur can be very slow acting, depending on the size of the soil particles.

Easy to apply

- Apply SOIL-MEND at any time of year, whether crops are present or not.
- Add SOIL-MEND to irrigation water or spray directly on to soil.

SOIL-MEND

Calcium Polysulfide Soil Conditioner

Guaranteed Analysis	By Weight
Calcium (Ca)	6.0%
Sulfur (S)	22.0%

Derived from
Calcium Polysulfide
Weight per gallon: 10.6 lbs.

Technical Data

pH	10.9 to 11.2
Specific gravity	1.27 (H ₂ O=1)
Pounds per gallon	10.6
Pounds sulfur per gallon	2.2
Pounds calcium per gallon	0.6
Gallons per ton	188.7

Important: Always read the label before buying and follow label instructions when using this product.

CONDITIONS OF SALE – LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES

Failure to strictly follow label directions may cause injury to crops, animals, man or the environment. Tessenderlo Kerley, Inc. (TKI) warrants that the product conforms to the chemical description on the label and is reasonably fit for the purpose referred to in the directions for use when properly applied in normal weather conditions. TKI makes no other warranty or representation of any kind, express or implied, concerning the product, including no implied warranty of merchantability or fitness for any particular purpose. The exclusive remedy against TKI for any cause of action relating to the handling or use of the product is a claim for actual out-of-pocket damages, and in no event shall TKI be liable for special, indirect, incidental or consequential damages or expense of any nature, including, but not limited to, loss of profits or income, whether or not based on the negligence of TKI, breach of warranty, strict liability in tort, or any other cause of action. TKI and the seller offer the product, and the buyer and users accept it, subject to the foregoing conditions of sale and limitations of warranty, liability and remedies.
